Admissions Committee

Universitat Autònoma de Barcelona (UAB)

Master's in Computer Vision Program

Barcelona, Spain

Subject: Application for Master's in Computer Vision

Dear Admissions Committee,

I am thrilled to apply for the **Master's in Computer Vision at UAB Barcelona**, as I am deeply passionate about artificial intelligence, image processing, and machine learning. With a background in **Computer Science** from COMSATS University and hands-on experience as a **Full Stack and Backend Developer**, I am eager to advance my expertise in visual computing and contribute to cutting-edge research.

During my professional journey, I have developed and deployed scalable applications, optimized database systems, and worked with AI-driven solutions. My projects, including **an AR-based quantified drug detector and a blockchain-powered voting system**, have reinforced my passion for innovation. While I have primarily worked on backend technologies, I am increasingly drawn to the potential of **computer vision in areas like automation, healthcare, and security**—fields where AI is revolutionizing the way we interact with visual data.

UAB's strong research focus and its collaborations in **computer vision, deep learning, and AI** make it an ideal place for me to grow academically and professionally. I am particularly excited about the opportunity to learn from esteemed faculty, collaborate on research projects, and gain hands-on experience with state-of-the-art technologies.

With my technical background, problem-solving skills, and drive for innovation, I am confident that I will be a valuable addition to the program. I look forward to the opportunity to contribute to UAB's research community and expand my knowledge in this transformative field.

Thank you for your time and consideration. I eagerly await the possibility of joining your program.

Sincerely,

Hassan Tariq
